Forward

Reverse

Combined

Buff

By using Terrain on the forward pass, and I used only in the middles on the reverse pass, along with higher mic streams limited to the mid-lane and beyond, this 44 foot conditioner pattern will be durable and resistant to change. This will allow you to keep your line longer and make small moves during transition so you can become a bowling Titan

Kegel Tip - Higher mic streams means more oil is being applied to the lane in that area
